

Changing Shape

Which was the most changeable object on your table?

Which was the least changeable object on your table?

Why do you think this is?

The shape of all these objects could be changed in some way. See if you can find 3 objects which can't be squashed, bent, twisted or stretched. Write them down here:

... * ...

What have you noticed about all the objects which change shape?

What have you noticed about all the objects which don't change shape?

Why do you think some objects do change and others don't?
