

Toys

How have toys changed in the past 100 years?

We are going to learn about toys through history. These tasks are designed to help extend our learning at home. Pick at least 2 and bring your homework into school throughout the half-term.

Design a poster for a new toy you've created, make it eye catching!	Interview your grandparents about the toys they had, draw a picture of one of the toys.	Use junk modelling to make your own toy.
Create a poster about the toys your parents had.	Set up your own pretend toy shop. How many different toys can you sell?	What materials are your toys made from? Can you sort them into groups?
Make your own air powered car.	Create your own teddy bear art.	Explore toys from around the world, how are do they compare?
