

YEAR 6

Week 14 - Wednesday

Use a Formula to Calculate Area of Shapes

Use a formula to calculate the missing dimension using the given area:

1.) 

2.) 

Back to Basics

3.) $\frac{8363}{19} =$

4.) $849 \times 37 =$

5.) $2,298 + 7,598 =$

6.) $2,009 - 1,989 =$

ANSWERS

Use a Formula to Calculate Area of Shapes

1.) $7\text{cm} \times 7\text{cm} = 49\text{cm}^2$
Length = 7cm

2.) $60\text{cm}^2 \div 12\text{cm} = 5\text{cm}$
Width = 5cm

Back to Basics

3.) $440 \frac{3}{19}$

4.) 31,413

5.) 9,896

6.) 20
