

YEAR 6

Week 20 - Monday

Missing Angles at a Point & Straight-Line

Calculate the missing angles:

1.)

2.)

Back to Basics

3.) $\frac{4095}{45} =$

4.) $3,287 \times 67 =$

5.) $4,398 + 2,188 =$

6.) $5,498 - 3,299 =$

ANSWERS

Missing Angles at a Point & Straight-Line

1.) $a = 140^\circ$

2.) $b = 115^\circ$

Back to Basics

3.) 91

4.) 220,229

5.) 6,586

6.) 2,199
